BOARD OF TRADE.

The Live Young Men of Maysville Form an Organization For the Benefit of the City.

ALL CROAKERS WILL BE FORCED TO THE REAR.

According to the call published in our dailies representative gathering of our business men met in the Council Chamber last night at 7:30 o'clock to formulate plans and to organize an Association having for its object the betterment of commercial relations in our city.

Mr. Thomas A. Davis stepped forward and called for the nomination of a Temporary Chairman. Mr. John Duley being proposed, his election followed unanimously.

Upon accepting the office Mr. Duley very fittingly stated the object of the gathering and called for views from men in the audience.

Several responded with brief talks, expounding the idea and being unanimous in the opinion that such an organization was imperative.

Mr. Harry C. Curran was elected Secretary, upon assuming the duties presented a preamble which outlined the purposes and ends of the organization. It was adopted.

A permanent organization was then effected by the election of Mr. John Duley as President of the Board of Trade.

It was deemed wise to defer the election of other officers until a future meeting, which was set for Wednesday, March 1st, at 8 p. m., in the Council Chamber, which Mayor Staupitz very generously offered as a meeting place.

A committee of three—Mr. Frank H. Clarke, Major William H. Means and Mr. Harry C. Curran—was appointed by President Duley to draft rules and regulations which shall govern the Board of Trade.

Tactfully understood, every member enrolled was constituted a committee to solicit members, after which a motion to adjourn prevailed.

Great enthusiasm was exhibited, and if the zeal and interest of last night count for anything then all old fossils, every antiquarian and back-numbered unprogressive spirit are to be sunk beneath the mud of our streets and over them placed brick or cement, which shall hide them from view forever.

The preamble adopted is appended, together with a list of the business men who enrolled themselves as members of Maysville's Board of Trade.

Desiring to promote the commercial interests of our city, and with purposes and aims looking to a betterment of our life and commerce in all its branches; to cultivate more friendly relations between merchant and buyer in the territory contiguous and rightfully belonging to Maysville; founded upon business principles, having a platform of reciprocity which clearly understood and tenaciously observed shall allow to arise that honesty of purpose and frankness of dealing which compels the trader to seek us because the policy of nominal profits and generous treatment are adhered to, do now formulate, adopt and publish these our principles:

William N. Kirk of Lewis county and Miss Ida Brownning of Mason county married yesterday.

He was 73 years of age, was born in this city and had been a life-long resident of this vicinity.

For years he had been engaged in the book-binding and currier business, and was also Sexton of the Maysville Cemetery for a long period.

He leaves two brothers, John of Chicago and Edward of Ft. Plain, W. Va. His wife, one daughter, Miss Julia, and one son, Orlando P., survive him.

The funeral will take place from his late residence tomorrow afternoon at 2:30 with services by the Rev. John Harbison of the First Presbyterian Church.

Interment in the Maysville Cemetery.

Dangers of the Grip.

The greatest danger from La Grippe is of its ending in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for the grip we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure the grip in less time than any other treatment. It is pleasant and safe to take. For sale by J. Jas. Wood & Son, Druggists.

ISLAND OF CEBU ALSO CONQUERED.

Many Insurgents Killed in a Charge Made by the Nebraskans Near Manila Wednesday Morning.

Adm. Dewey's Guns Thundered in Honor of George Washington's Birthday—Commissioners from Negroes Tell Dewey of the Flag Raising.

MANILA, Feb. 23.—The Nebraskans Wednesday morning drove a force of 300 Filipinos three miles to Pasig, killing many of them. Twenty-one of their dead were found on the field. Of our men none were killed and only three wounded. They are John Alley, Company D; Alonzo Groverick, Company M; and Charles Pike, Company K, 1st Nebraska Infantry.

While the guns on the city walls and those on board the ships of Rr. Adm. Dewey's fleet in the bay fired a salute in honor of Washington's birthday, four commissioners from the island of Negros had an interview with Gen. Otis and informed him that the American flag had already been raised over that island, and that its inhabitants were ready, anxious and willing to accept any proposition that the Americans might offer. The insurgents have been driven from the island entirely.

Although the Iloilo rebels have given up the people of Negros much trouble, especially in the matter of financial assistance demanded by the rebel leaders, the inhabitants of Negros have persistently held aloof, and now, through the commissioners, announce that they wanted the advice and help of Gen. Otis. The latter assured them that the Americans would provide an acceptable government, and, in the meantime, he instructed them not to do anything. The Negro commissioners were delighted with their reception.

The legislature agreed Wednesday upon an appropriation of \$60,000 to build an annex to the state capital for supreme court chamber and departments for auditor, treasurer and historical society. NIGHT OF TERROR.

Immense Damage Wrought in Manila by a Fire Thought to Have Started by Rebels.

SEVERAL ACRES OF BUILDINGS BURNED.

City Fire Department Was Inadequate and Help Was Summoned From the English Volunteer Brigade.

There Was Fighting in the Streets, But the Americans Quickly Quelled the Disturbances. Many Insurgents Killed and Several Americans Wounded.

MANILA, Feb. 23.—Wednesday night was one of terror to thousands of the inhabitants of Manila, the rebels making good their oft-repeated threats to the extent of burning acres of buildings, wounding an officer and three men by firing through windows during the excitement.

At 8 o'clock an incendiary fire occurred in a block of brick buildings occupied by Chinese on the Calle Lacoste, in the Santa Cruz district. A stiff breeze was blowing, and the inflammability of the structures caused the blaze to spread with alarming rapidity. The city fire department was hopelessly incompetent and the English volunteer brigade from Santa Mesa was summoned and with a modern engine pumping adequate streams from the canal, succeeded after four hours work in getting the entire block and the greater part of two other acres across the street were completely gutted.

The firemen, escorted by soldiers, proceeded to clean out the houses, while the fire was unheeded.

A few hours before her dead body was found, a man, who had accompanied her to the hotel Tuesday night, left the place. He has not been seen since.

The gas jets in the woman's room had been left open, and she was probably asphyxiated. Whether it was a case of suicide or foul play the police are endeavoring to determine. The man and woman were registered at the hotel as "P. McDermott and wife, Boston." This is believed to have been an assumed name. The dead woman was about 20 years old.

BERLIN, Feb. 23.—The German press comments in a friendly tone upon the arrival of Robert F. Porter, the commercial expert, who was President McKinley's special commissioner to Cuba and Porto Rico, and reproduce his recent statement to the correspondent of the Associated Press in London, in the course of which he said there could be no commercial difficulty between the United States and Germany, because, apart from Great Britain, the United States is built more closely to Germany by bonds of kinship or mutual interests than to any other power.

The semi-official Berliner Post refers to the interview as "noteworthy."

"Even if Mr. Porter's mission be unofficial he will find himself welcomed in both official and private circles and there will be every reason to believe that he will give his information he may desire."

A Matter of Convenience.

It is the small thing that counts in the long run, and when the run is as long as that of the "Pacific Coast Limited," that is, from St. Louis to Los Angeles and San Francisco, the small things that contribute to the comfort of the passenger are of great importance.

The Pacific Coast Limited is a palatial train, well ventilated, California points, running semi-weekly, leaving St. Louis every Tuesday and Saturday at 10:30 p. m., and reaching California the third day out.

The equipment is of the surpassing kind, entirely new, and consisting of composite car, with barbershop, bath room, buffet, and observation car, reading and writing car, ladies' private compartment and observation car, Pullman ten-section double drawing room sleeping cars, and a Pullman dining car. Meals are served in a car, which means that locomotion incurs no expense in this matter.

For answer questions in regard to the train, ask your travel agent, or receive a descriptive book of the train.

Direct Route Between the East and West.

Passengers going to any point East or West, and desiring a quick and comfortable trip, should take the Baltimore and Ohio Southern Railway. It is the only line operating between the East and West, and it is the only line that runs between St. Louis, Springfield, Peoria, Vincennes, Louisville, Cincinnati and New York via Washington, D. C., Baltimore and Philadelphia.

It also has the valuable reputation for speed, comfort and safety and the regularity of its train service. It is the most direct route between the East and West, and it is the only line that runs between St. Louis, Springfield, Peoria, Vincennes, Louisville, Cincinnati and New York via Washington, D. C., Baltimore and Philadelphia.

The "Royal Blue Service" consists of the most magnificently furnished Pullman drawing room, dining room, and observation car, dining cars operated by this company. Meals are served in a car West of Grafton, and in the dining car between Grafton and St. Louis. The dining car is the most comfortable and the most luxurious of any of the lines. All trains of this line connect in the Union Depot with the large commercial buyers when traveling between the East and West.

The B. and O. S. W. is a favorite route with the large commercial buyers when traveling between the East and West.

Pacific Coast Limited Between St. Louis and California.

Commencing November 1st and continuing thereafter during the season the Iron Mountain Route in connection with the Texas and Pacific and Southern Pacific Railways (the True Southern Route) will re-establish their direct through service to the Pacific Coast, which train proved such a great success last season. The train consists of Composite Car, containing reading, writing and smoking room, buffet, barbershop and bath room; Pullman Car containing seven private compartments and double drawing rooms; two or more sleeping cars containing twelve sections, state rooms and drawing rooms; Dining Car with Pullman kitchen and bar; and Pullman observation car. The equipment used is of the most modern and improved Pullman pattern, vestibuled end to end, and the train is lighted by electric lights. Entirely first-class train and run for free-traveler travel exclusively. This train leaves every Saturday at 10:30 p. m., arriving Los Angeles Friday and Tuesday at 4 p. m., and San Francisco Saturday and Wednesday at 10:30 p. m. Less than three days to California. In addition to the above service a weekly tourist car will be run between St. Louis and California via the above route, leaving St. Louis every Friday morning. These tourist cars are available holders of second-class tickets. Special rates and further particulars regarding this route is recognized by the traveling public. It is the ideal winter way to the Italy of America, and is the most comfortable and the most luxurious of any of the lines. All trains of this line connect in the Union Depot with the large commercial buyers when traveling between the East and West.

The Dissolution SALE

STILL CONTINUES!

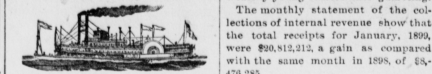

The question that has been asked us so often in the past few days is, "Are you really going out of business, or are you just doing like so many others—trying to reduce your stock at this, the dullest season of the year?" Those who have been in and learned the prices that we are making on our fine goods they have no doubts. You who have not been in, and who do not avail yourselves of the benefits of this, the greatest sacrifice sale ever made in this city, will be the losers. We state most positively that **LEE & BALLENGER** are going out of business, and are selling their entire stock of

MEN'S, BOYS' AND CHILDREN'S TAILOR-MADE CLOTHING!

And Men's Furnishings of every kind—Shirts, Underwear, Hats, Caps. Our line of fine Stiff Hats we believe to be one of the best stock in the state. All of these goods will be offered and sold at less than half their real value. This sale will continue until the whole stock is sold out and the business of the firm settled up. It will pay you to see these goods for present or future use. You will surely never again get them so cheap. If we were going to continue in business we would not think of selling these goods at the prices they are going for. We ask you to come in and see the difference between a genuine closing-out-to-quit-business sale and the fakes that are so frequently advertised. In twenty years in business in this city we have never advertised anything that we did not do. We stand upon our record. This sale is the real thing—closing out dissolution to retire from business at prices never before equaled and perhaps never will be again. You can't afford to miss it. Respectfully,

LEE & BALLENGER

FLITSAM—JETSAM—LIGAN!
NEWSY NOTES FROM NATURAL'S GREAT HIGHWAY.

The Bonanza was the packet up last night for Paducah.

The John Moran with the Pittsburgh coal passed down yesterday.

The Cincinnati Marine Ways resumed operations yesterday.

The H. D. Wood passed down for Louisville with a tow of coal.

The Keystone State passed up last night for Pittsburgh with a fine trip.

The Dick Fulton and Tornado were down yesterday with tows of Pittsburgh coal for Louisville.

The Henry M. Stanley will pass down to night from Paducah, and tomorrow night will resume her Thursday trips to Kansas.

The packets had a tough time of it yesterday and the day before trying to jump the big piles of shore ice that the rising river had floated off. It's all good luck.

The ice couldn't get to the wharves at Ripley, so someone built a fire on the roof, and Wharfmaster Flagg had his hand full keeping the ice off with one while he put the fire out with the other.

The shore ice running out of the Kanawha showed two loaded barges belonging to the Chesapeake Mining Company out on the bank at Lock No. 5. One of the barges will prove a total loss, and it seemed likely that the other one will be lost also.

At Huntington the sudden rise in the river brought the shore ice down with such force as to break the city wharves loose and knock a hole in the C. and O. wharves. The former boat was caught and taken back without damage, and the C. and O. boat has been repaired.

There have been so many conflicting reports as to the actual amount of snow in the mountains and to the amount of rainfall that it is hard down this way to make a safe prediction as to what the river is going to do in the face of a flood. From what information we have before us at the present we feel safe in saying that there will be no flood in the Ohio this year.

Some coal will be shipped from Pittsburgh on the present rise, although there are few boats in port to take out tows. The Red Roberts, James Maren, Valiant and Raymond Horner will get away, and several other boats will go if they can arrive before the river begins to fall. As a rain is predicted, there is no likelihood of the river falling below a barge-shipping stage this week.
